Kits Contents

Item No.	Part Description	Quantity
1	Fridge Freezer Replacement Lid	1
2	Hinge Pin Spring	1
3	Hinge Pin	1

Tools

Tool Description	
<ul style="list-style-type: none"> Putty Knife or comparable tool 	<ul style="list-style-type: none"> Phillips Head Screwdriver

Installation

1. Remove safety strap from old lid for re-use.
2. Locate the hinge pin hole as shown above (left of display). Insert the spring first followed by the metal pin.
3. Using a blunt tool such as a putty knife; push the spring / pin combination into the hole. While the pin / spring are retained; begin installing the new lid starting with the pre-formed plastic pin on the opposite side of the lid.
4. Align the lid pin hole to the retained pin / spring. Once aligned, carefully remove the blunt tool and allow the pin to snap into place.
5. Reinstall the safety strap using a Phillips head screw driver.
