

E-Z Power Tonno™

Owner's Manual

Congratulations on the purchase of your WEBASTO E-Z POWER TONNO™.

You have purchased a product that has been engineered and manufactured to the highest quality standards in the industry. Your E-Z POWER TONNO™ will provide you with beauty and functionality for many years.

Please take a few minutes to read this manual to become familiar with the operation and care of your E-Z POWER TONNO™.

OPENING AND CLOSING YOUR E-Z POWER TONNO™

- **Key Fobs:** Your Tonno is operated exclusively by the use of a Key Fob (2 Fobs are provided with each Tonno.) You can use the Key Fob to operate your Tonno from as far away as 30 feet.
- **To Open your Tonno:** Press and release the button labeled OPEN. The Tonno will cycle to a position several inches from full open and stop. This Safety Stop allows you to be assured that the mechanism is free of obstructions. Press and Hold the OPEN button again until the Tonno is in the fully open position. You may experience occasional intermittent operation of the Tonno Cover during final open/close. Changing the location of the Key Fob in relation to the Tonno will result in smooth operation.
- **To Close your Tonno:** Press and release the button labeled CLOSE. The Tonno will cycle to a position several inches from full closed and stop. This Safety Stop allows you to be assured that the mechanism is free of obstructions. Press and hold the CLOSE button again until the Tonno is in the fully closed position.

Please note:

- **Movement of the Tonno** in either direction can be stopped by pressing and releasing the open or close button.

CARGO BED LIGHT

- Your Tonno is equipped with a Cargo Bed Light that can be manually operated by pressing the button on the Key Fob labeled with a light bulb. After pressing and releasing the light button the light will remain on for 3 minutes and automatically turn off. The light will automatically turn on during opening and closing of the Tonno and remain on for 40 seconds and automatically turn off.

CARE AND MAINTENANCE OF THE E-Z POWER TONNO™

- **Your E-Z POWER TONNO** is manufactured with low maintenance in mind. Keeping the tracks free of obstacles such as twigs pebbles or other things that could jam the sliding mechanism and washing the cover with water and mild detergent will extend the life and keep your Power Tonno looking like new. Change the battery in the Key Fobs when the maximum operating distance becomes noticeably less.
- **Initializing the Electronic controller:** Your Tonno is pre-set at the factory and will only loose the settings if the current is interrupted while operating the Tonno. If this should happen please follow the following procedure to re-initialize your controller.
- **Confirm that there is current** available by pushing the program switch on the motor cover and hold for five (5) seconds. The light will blink two (2) times.
- **Activate the Key Fob buttons** in the following sequence within (3) seconds;
 - Close/Open
 - Close/Open
 - Close/Open

- Upon start of initialization, the Tonno will close fully to the hard stop, then open fully to the hard stop, and lastly close to the fully closed position.
- This completes the initialization process.

Your E-Z Power Tonno™ comes with (2) Key Fobs. If they should be lost or damaged, new Key Fobs must be Programmed. A Program Switch located on the motor cover, below the Cargo Bed light is provided for this purpose. Please follow this procedure.

- Press and hold the program switch for (5) seconds.
- The system will enter into the transmitter program mode and confirm with (2) flashes of the Cargo Bed light.
- Release the switch.
- Press the CLOSE button on the Key Fob. The system will confirm with (1) light flash indicating that it has learned the transmitter (Key Fob) code.

The system will exit the Transmitter Programming Mode if:

1. (3) transmitters (Key Fobs) have been programmed.
2. No new transmitters have been programmed for (7) seconds.

Upon exiting the program mode, the system will confirm by flashing the light (2) times.

Note: In the event that the program switch is shorted, stuck on or pressed for more than (7) seconds and not released, the system will flash the light and then exit the program mode.

Warranty:

Webasto Product North America, Inc. (WPNA) warrants the EZ Power Tonno™ for 3 years or 36,000 miles (which ever occurs first,) against defective materials or workmanship, of all component parts of the E-Z Power Tonno™.

Proof of mileage and date of installation or purchase are required to receive warranty service.

The warranty applies only when the E-Z POWER TONNO™ has been installed in accordance with WPNA installation instructions. Defects caused by rough handling, incorrect use, vandalism or accident are not covered by this warranty. Transportation costs are the responsibility of the owner.

Labor costs for installation or service are not covered under this warranty and should not be assumed unless the installer provides a separate written warranty.

All obligations of WPNA under this warranty shall be terminated if:

Damage is caused by improper installation or application, adjustment, accident, objects striking the Tonno, modification, alteration, unauthorized repair or service, physical abuse to, or misuse of, the EZ Power Tonno™, freight damage, careless handling, airborne fallout such as chemicals, tree sap, etc., acts of God such as windstorm or lightning, fluctuation in electrical power, normal wear and tear, water damage to contents of pick up bed. The owner cannot produce evidence of original purchase, mileage and installation date.

To make a claim per the provisions stated in this warranty. Contact the company from which your EZ Power Tonno™ was purchased, with the serial number, date and proof of purchase.

WARRANTY LIMITATIONS AND EXCLUSIONS:

WEBASTO PRODUCT NORTH AMERICA INC. MAKES NO OTHER WARRANTY OF ANY KIND WHATEVER, EXPRESSED OR IMPLIED; AND ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE WHICH EXCEED THE ABOVE STATED OBLIGATIONS ARE DISCLAIMED BY WEBASTO PRODUCT NORTH AMERICA INC. AND EXCLUDED FROM THIS AGREEMENT.
